

REFLINE VANISHING SPRAY

VANISHING SPRAY AEROSOL FOR SOCCER REFEREES TO MARK A FREE KICK WALL.

A great tool to assist Soccer referees to control and prevent players from encroaching the designated 10-yard free kick wall. Shake the **REFLINE VANISHING SPRAY**, point it towards the ground and then press the trigger. The spray line foams up for better visibility. Designate the position of the ball as a semi-circle and the player wall as a 4 to 6 feet long line, 3 to 5 inches wide. REFLINE will disappear in 4 minutes.

A must use tool for soccer referees to control players jostling and encroaching for positions during free kick past the designated 10-yard wall distance. Soccer referees can use **REFLINE VANISHING SPRAY** as a temporary visual marker for ensuring fair play. This product has been used in several countries and is now adopted in the US. No need to pay a crazy price for such an essential tool. Buy directly **REFLINE VANISHING SPRAY** from us at an affordable price.

-
- **Designed for easy clip on and clip off.** Mark a semi-circle where ball is to be placed.
 - Special mechanism prevents accidental spray. Marks a line for the player defensive wall.
 - **Is safe for the user, environment and grass. Will not stain shoes or uniforms.**
 - More product per can - 5.5 ounces. BEST PRICE. Direct from manufacturer.
 - Spray 16 inches away from the ground to make a 6-inch-wide line.
 - In windy, cold or rainy conditions keep can about 8 inches above ground.
 - The closer to the ground the taller foam line is formed.
 - One can will mark a minimum seven ball semi-circles and seven wall lines. Covers 50 feet.
 - It is recommended to use a new can at half time.
 - A spare can should be kept on hand if the first can runs out during a match.
 - **Disposal of REFLINE VANISHING SPRAY cans is safe and not harmful to the environment.**
