

AQUASTRIPE #10 ZERO

SUPER CONCENTRATED PREMIUM FIELD MARKING PAINT WITH **ZERO-VOC**.

The lower the **VOC (Volatile Organic Compounds)** the better it is for the **environment and the user**. This formulation is not only a super concentrated athletic field line marking paint that saves shipping costs and storage space, is convenient to handle, but also contains **ZERO VOC**. It is easy to thin - Use 1 gallon and thin with 4 gallons of water to make 5 gallons of good quality field marking paint.

AQUASTRIPE ZERO VOC, is a **super-concentrate, top quality, proprietary, athletic field marking paint**. For safety and protection of the environment, chemists strive to make paints that have low VOC (volatile organic compounds). **The lower the VOC's the better. This paint contains "ZERO VOC"**. **Even when thinned with 5 parts of water it is designed to perform as a top quality, extremely durable field marking paint**. Being water-based it is safe for the user and the environment. It will not harm, kill or brown any type of natural grass. It contains no fillers or extenders to clog up spray machine filters or tips. **AQUASTRIPE ZERO VOC contains special additives that make it go through spray machines easier without undue pressure on pumps or batteries. Can be used with most air-less or battery-operated machines. A very popular choice for soccer associations, parks and recreation departments because it saves shipping costs, convenient to store and handle one-gallon containers**. This top quality thinned 5 gallons can easily be sprayed from an air-less gasoline spray machines a battery-operated machine.
