

# TURFDEFENDER- ODOR ELIMINATOR GW

## **KILLS, ELIMINATES ODORS CAUSED BY BACTERIA ON SYNTHETIC FIELD TURF.**

GW is a very effective formulation to kill germs, bacteria, microbes that cause bad, foul odor in synthetic turf sports fields, athletic facility locker rooms, mats, carpets, bathrooms, any non-porous surfaces. A non-staining odor neutralizer and deodorizer. Kills / eliminates foul odors caused by mildew, smoke, vomit, sewage and urine. Concentrated, odor killer that is a safe, versatile, Eco friendly yet does not sacrifice performance.

*Quart bottles, Gallon bottles, Five-gallon buckets*

**GERM-WARFARE effectively kills the bacteria, germs, microbes, that are responsible for causing the bad odors. It is a very concentrated product** and needs to be diluted as per label instructions. Dilute 1 part with 64 parts of water. Even when diluted it is very effective and safe for use not only on synthetic turf artificial grass athletic fields but on a whole range of water-safe non-porous surfaces. This versatile formulation is designed for use virtually anywhere to eliminate airborne odors and substrate embedded odors. **Other than athletic sports surfaces also used in high school restrooms, lobbies, hotels, daycare facilities, parks and recreational facilities, nursing homes, hospitals, pet care, etc.**

- Very effective to eliminate odors from synthetic turf sports fields. Not EPA registered.
- **Safe, will not damage artificial turf plastic filaments and rubber sand infield fill.**
- Instantly removes sources of odors, not just mask the odors.
- Also acts as a cleaner. Kills both oil and water-based odors.
- Concentrated product has to be diluted before use.
- Dilute 1 part with 64 parts water. 2 ounces per gallon.
- Can be sprayed with pump-up hand-held sprayers or ride-on boom sprayers.
- Leaves no sticky or soapy residues to attract dirt, soil, re-staining.
- Safe to wash down diluted rinse liquid in sewer system.
